

# AmirHossein Sojoodi

MEMBER OF TECHNICAL STAFF AT AMD · HPC RESEARCHER · GPU SOFTWARE ENGINEER

Kingston, Ontario, Canada

Available upon request | [amir.sojoodi@gmail.com](mailto:amir.sojoodi@gmail.com) | [amirsojoodi.github.io](http://amirsojoodi.github.io) | [amirsojoodi](https://www.linkedin.com/in/amirsojoodi/) | [amirsojoodi](https://www.instagram.com/amirsojoodi/)

## Summary

---

PhD in Computer Science specializing in high-performance computing and GPU communication. Member of Technical Staff at AMD, working on GPU communication and ROCSHMEM. Experienced in GPU-aware middleware and parallel programming for scalable HPC and AI systems, with experience teaching and mentoring across computer science courses.

## Education

---

### Queen's University

Kingston, Canada

Ph.D. IN ELECTRICAL AND COMPUTER ENGINEERING

Jan. 2020 - Jan. 2026

- **Research Area:** High-performance GPU-aware communication in hybrid clusters, supervised by Dr. A. Afsahi

### Shiraz University

Shiraz, Iran

M.S. IN SOFTWARE ENGINEERING

Sep. 2012 - Aug. 2015

### Shiraz University

Shiraz, Iran

B.S. IN SOFTWARE ENGINEERING

Sep. 2007 - Aug. 2012

## Professional Experience

---

### Member of Technical Staff

Toronto, Canada

AMD

Jan. 2026 - Present

- Developing and optimizing GPU communication libraries, MPI/ROCSHMEM.
- Conducting performance analysis and benchmarking to identify bottlenecks and implement improvements in GPU communication protocols.

### CUDA Developer, part-time

Kingston, Canada

RE GRANT CONSULTING COMPANY

Oct. 2024 - Apr. 2025

- Extend the Rockport Networks Inc. (CERIO) CUDA microbenchmark suite to provide more insights into the performance of their systems.
- Maintain and update this C++ CMake project to adhere with new use cases and requirements, such as Windows development environments.
- Utilize NVIDIA management library (NVML) to monitor the GPU performance and power utilization.

### GPU Software Engineer, part-time

Kingston, Canada

DISTRIBUTIVE CO.

Sep. 2022 - Sep. 2024

- Researched and developed CUDA, WebGPU, and WebAssembly solutions for the Distributed Compute Protocol.
- Achieved a +700x speedup in a WebGPU-based combinatorial math problem (LeGendre Pairs) compared to the CPU implementation.
- Designed and developed a WebGPU microbenchmark for Distributed Compute Protocol (DCP) systems.
- Prepared and delivered technical presentations and reports for demos to potential investors.

### CUDA Developer, part-time

Kingston, Canada

RE GRANT CONSULTING COMPANY

Oct. 2023 - Mar. 2024

- Designed and implemented a CUDA microbenchmark suite to analyze the performance of Rockport Networks Inc. (CERIO) systems.
- Developed a comprehensive C++ CMake project incorporating stress and speed tests for various data transfer types, sizes, and scenarios.
- Consistently met project deadlines and delivered high-quality code under tight schedules.

### Research Intern, part-time

Seattle, US (Remote)

MICROSOFT RESEARCH (MSR)

Jun. 2022 - Aug. 2022

- Performed a comparative study on the methods to utilize GPU in Numpy-based python frameworks.
- Profiled and analyzed model-parallelism Deep Learning framework named Distributed Deep Learning (DistDL).
- Accelerated DistDL utilizing CuPy and Numba libraries to get over 2x performance improvement.

### Course Design and Development Specialist, part-time

Kingston, Canada

ENGINEERING TEACHING AND LEARNING TEAM, QUEEN'S UNIVERSITY

Sep. 2020 - Apr. 2022

- Produced and edited videos, and created animations to enhance virtual lectures for the Faculty of Engineering and Applied Science courses.
- Automated the course evaluation process using Python and Queen's survey platform, streamlining the compilation of evaluations.
- Updated and ported the Courses' Learning Objectives (CLOs) to meet the latest requirements.

## **Research Assistant and System Administrator, part-time**

HPC GROUP, CSE DEPARTMENT, SHIRAZ UNIVERSITY

Shiraz, Iran

Sep. 2018 - Nov. 2019

- Designed and implemented a GPU-aware big-data processing framework based on Apache Ignite.
- Demonstrated a 200x speedup in Genetic Algorithm (GA) optimization using the GPU-based Apache Ignite.
- Mentored and supported undergraduate/graduate members of the group.
- Setup, organized, and maintained group's GPU cluster, with services like Apache Hadoop, Spark, Tez, and Ignite.

## **System Administrator and Java Backend Developer, full-time**

Shiraz, Iran

ARIA HAMRAH SAMANEH

Apr. 2016 - Feb. 2017

- Developed and maintained interactive data visualization dashboards using Tableau, enhancing decision-making processes.
- Configured and managed the company's Tableau server for Shiraz City Hall offices, ensuring high availability and performance.
- Implemented robust Java-based backend services to support various company projects.

## **Developer and Research Assistant, full-time**

Shiraz, Iran

INFORMATION AND COMMUNICATION TECHNOLOGY CENTER (ICTC), SHIRAZ UNIVERSITY

Oct. 2015 - Apr. 2016

- Studied and developed Business Intelligence (BI) solutions for Shiraz University IT center.
- Developed and localized BI solutions based on Microsoft Power BI.

## **Graduate Research Fellow and System Administrator, part-time**

Shiraz, Iran

HPC GROUP, CSE DEPARTMENT, SHIRAZ UNIVERSITY

Sep. 2012 - Aug. 2015

- Designed and implemented a GPU-enabled framework based on Apache Tez (MapReduce-based task graph), with a speedup of 4x.
- Performed a comparative study on GPU processing frameworks and libraries in Java programming language.
- Managed and administered the HPC group's GPU servers and XenServer virtual machines.

## **Honors & Awards**

---

2024	<b>Best Paper Award</b> , International Workshop on Extreme Heterogeneity Solutions (ExHET)	Edinburgh, UK
2020	<b>Parya Scholarship</b> , Parya Trillium Foundation	Canada
2019	<b>Best T.A.</b> , CSE Department students' poll	Shiraz University
2015	<b>Silver Medal (with B. Ahmadi and M. R. Katebzadeh)</b> , 7th National JavaChallenge	Sharif University
2012	<b>Gold Medal in Team Section</b> , Chess Games, South of Iran Universities	Shiraz University
2010	<b>5th Place (with M. Asadi)</b> , Students Competitions (Ms Pacman Intelligent Controller)	IEEE CIG (Online)
2010	<b>5th Place (with S. Kazemi and M. Saeedi)</b> , Kashan 2nd International Programming contest (ACM)	Kashan University

## **Selected Teaching Experience**

---

### COURSE INSTRUCTOR

2016	<b>Introduction to Object Oriented Programming with Java</b> , Instructor	Shiraz University
2013	<b>Software Engineering Lab</b> , Instructor	Shiraz University
2012	<b>Software Engineering Lab</b> , Instructor	Shiraz University
2012	<b>Software Engineering Lab</b> , Instructor	Shiraz University

### TEACHING ASSISTANT

2024	<b>ELEC 278 - Fundamentals of Information Structure</b> , TA of Dr. Tom Dean	Queen's University
2024	<b>ELEC 374 - Digital Systems Engineering</b> , TA of Dr. Ahmad Afsahi	Queen's University
2023	<b>ELEC 379 - Introduction to Algorithms</b> , TA of Dr. Naraig Manjikian	Queen's University
2018	<b>GPU Programming</b> , TA of Dr. Farshad Khunjush	Shiraz University
2014	<b>Multicore Programming</b> , TA of Dr. Farshad Khunjush	Shiraz University
2012	<b>Operating Systems</b> , TA of Dr. Mohammadreza Moosavi	Shiraz University

## **Related Volunteer Experience**

---

### Author and Developer

[amirsojoodi.github.io/posts](https://amirsojoodi.github.io/posts)

TECHNICAL BLOG/REPORTS

2015 - Present

- Author technical posts/reports about my research, projects, and experiences to share my knowledge with the community.
- Published over 70 posts so far, covering various topics in computer science and software engineering.

### Member

Queen's University

MPI FORUM

2022 - 2025

- Participated in the MPI Forum meetings to discuss the updates of the MPI standard.
- Contributed to the discussions in bi-weekly MPI hybrid working group meetings.

## Open Source Contributor

GOOGLE

Distributive Co.

2023 - 2024

- Contributed to Google Dawn, an open-source and cross-platform implementation of the WebGPU standard, used in Google Chrome.
- My contributions included fixing building issues on Linux using CMake.

## PhD Representative

GRADUATE ECE STUDENT COUNCIL

Queen's University

2023 - 2024

- Liaised graduate students concerns to the Electrical and Computer Engineering department during departmental monthly meetings.

## Selected Presentations

---

### Workshop Presenter

Kingston, Canada

DISTRIBUTIVE BOOK CLUB MEETINGS

Aug. 2023

- Presented “**Application Optimization Techniques**” for the LeGendre Pairs algorithm on GPUs.
- Discussed the challenges and optimizations, including shared-memory utilization, coalesced memory access, warp divergence, etc.
- Presented to Distributive Co. employees for 1 hour. ([Slides I](#) & [Slides II](#))

### Workshop Presenter

Kingston, Canada

DISTRIBUTIVE BOOK CLUB MEETINGS

Oct. 2023

- Presented “**Introduction to GPUs**”, their architecture, their memory hierarchy, and their memory access patterns.
- Covered the CUDA programming model, code profiling and performance tuning of the GPU applications. ([Slides I](#) & [Slides II](#))

## Skills

---

### Programming

C, C++, Python, JavaScript, Rust, TXL, Matlab, Java, Assembly, and Shell

### Platforms/APIs/Libs

CUDA, OpenMP, MPI, UCX, WebGPU, WGL, Pthreads, MapReduce, PyTorch, NumPy/CuPy, Apache Ignite

### Misc. Tools

Git, Perf, Docker, Valgrind, NVIDIA Nsight Tools, Arm DDT, Auto Tools, CMake, Nexus, L<sup>A</sup>T<sub>E</sub>X

### Languages

Farsi (maternal), English (fluent), French (basic)
